

Call for Expressions of Interest: Due September 15, 2016

Roles: Team Leader, Program Manager
Profile: Mid-Senior Level
Location: Kathmandu, Nepal

Terms of Reference

Development Gateway is currently seeking Team Leaders and Program Managers for the DFID-funded Evidence for Development (E4D) program with the government of Nepal. This represents a unique opportunity to take part in fostering a culture of data use by government and stakeholders to further Nepal development initiatives. Employment is contingent upon award.

The Team Leader will be responsible for overseeing the implementation of the program, including partner and client coordination, capacity building, and monitoring and evaluation. The Team Leader will manage client and stakeholder relationships, as well as project personnel. The Team Leader will also be responsible for overseeing program strategy, timelines, and financial management.

The Team Leader should have:

- Several years of experience with data, evidence, and monitoring and evaluation and learning (ME&L)
- Experience working with governments in South Asia; experience working with the Government of Nepal highly preferred
- A deep understanding of Nepal, including the political situation and culture
- Demonstrated experience in management of large development programs

We are very eager for candidates who are ready to explore innovative, impactful approaches for enhancing the role of data and evidence in development policy. Employment is contingent upon award.

To apply, send a CV to sorton@developmentgateway.org by September 15, 2016. Write “Team Leader” in the subject line.
